SEND services in Liverpool our vision for the future

We're consulting on our draft
SEND partnership strategy
designed to improve service
delivery in the city over the next
four years...

liverpool.gov.uk/sendstrategyconsultation

Liverpool is about to launch a new strategy which will shape the way services are delivered to 0 to 25-year-olds with SEND, from now until 2022.

This strategy aims to ensure all agencies work in partnership to provide high quality services, build on existing good practice and make improvements where needed.

The priorities we are setting out

We've looked at the current concerns, listened to your views and set out the following priorities in our draft strategy which are designed to bring about more inclusive, effective and joined up SEND provision in the city.

- **Identify additional needs** at the earliest opportunity.
- **Strengthen co-production** arrangements so parents and carers work closely with senior leaders on the SEND agenda.
- **Improve pupil attendance** at Liverpool's special schools and reduce mainstream school exclusions.
- **Improve inclusive practice** so that children and young people with SEND get the right support at the right time within mainstream provision, wherever possible.
- **Improve transition planning** across the key stages of the lives of children and young people, particularly when they are transitioning into adulthood.
- **Develop the health offer** so that children and young people with medical conditions are diagnosed as soon as possible and receive help and support that improves the quality of their lives.

We want to hear from you . . .

You - parents, carers, children and young people - have an invaluable part to play in how we shape SEND services over the next four years. We want to hear what you think about the draft strategy and its key priorities.

You can read the full draft strategy document and highlights from it at liverpool.gov.uk/sendstrategyconsultation where you'll also find the consultation questionnaire which you can complete online.

With your feedback we can achieve the best possible outcomes together.
